## THOUGHT GENESIS: THE EVOLUTION OF REASON

DOWNLOAD

iUniverse, United States, 2008. Paperback. Book Condition: New. 224 x 148 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In the past few decades, the study of the mind has been radiated in the field of cognitive neuroscience by numerous breakthroughs. At last, scientists have the ability to explain in unparalleled detail the intricate processes taking place inside the human brain. This field of cognitive neuroscience gives us the right tools to decipher the protocols which spawn behaviors, and confirm that our conscious thought is ruled by physiological networks predisposed to their natural environment. In Thought Genesis, David M. Sternberg takes us through a fascinating multidisciplinary voyage to unearth the very origins of thought. Much like an astrophysicist observes distant celestial objects to look back in time to beginning of the world, Sternberg examines the behaviors of lesser but fascinating species and reveals the very first moments our ancestors became aware and conscious of their environment. With easy-to-understand language, Sternberg not only discusses how a simple yet fundamental consciousness evolved to the complex human mind, but also raises attractive philosophical conundrums that test the manners in which we perceive the world. Take a mesmerizing journey into the intricacy of human thought and expand your world with Thought Genesis.
