Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from **Text-Book of the Elements of Machine Work, Prepared for Students in Technical, Manual Training, and Trade Schools, and for the Apprentice in the Shop** In teaching mathematics, physics, chemistry, etc., textbooks of classified information are available and are a required and necessary part of class-room and laboratory courses; thus the student advances rapidly and systematically, and the instructor is enabled to accomplish effective work. In this the Age of Machinery, students, apprentices, and machine operators are handicapped by lack of text-books of classified information of the art and science of machine construction. The aim of these books, - **Elements of Machine Work, Principles of Machine Work, and Advanced Machine Work** is to give the beginner the advantages of text-books as in the older subjects, that he may acquire the fundamental as well as advanced principles in a logical, systematic, and progressive manner and in the shortest time possible. Machines, mechanisms, and tools are illustrated graphically by means of original perspective and mechanical drawings, and briefly and systematically described by condensed tables. Operations in machining, standard and typical problems in machine construction are given in condensed schedules which name the material, operations, machines, speeds, feeds, jigs, fixtures, and tools. Calculations are supplied by condensed rules and formulas. Facts and principles are supplied which a student or apprentice in school or shop must rediscover or obtain from instructor or foreman. As the subject is large and varied, it is impossible for instructor or foreman to do justice to it; consequently, the task is a difficult one and the beginner's progress extremely slow. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books....
