

Text-Book of Anatomy and Physiology for Training Schools and Other Educational Insitutions

By Elizabeth Roxana Bundy

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1916 Excerpt: .and right atrium of the heart. From the abdominal walls the phrenic and lumbar veins open into the inferior vena cava. From abdominal viscera the renal and adrenal veins open into the inferior vena cava. The right ovarian and right spermatic veins open into the inferior vena cava; the left ovarian and left spermatic veins open into the left renal vein which carries their blood to the inferior vena cava. The splenic (or lienal), gastric, and mesenteric veins form the portal vein, which is four inches long and enters the liver at the transverse fissure or porta (Figs. 112, 146). THE PORTAL CIRCULATION This is the circulation of venous blood through the liver. The portal vein bears the products of digestion from stomach and intestines; entering the liver at the porta or gate, it divides into branches which form an extensive network in its substance. Having...
